Dear LAUSD Board Members:

The Executive Board of The Sierra Club's Central Group endorses the initiative of LAUSD Board Member Julie Korenstein, as requested by Gene Krischer and the proposed language of the Resolution on "Wireless Telecommunication Installations" that is before you for consideration.

As you may know we are constantly vigilant about health care and environmental issues concerning our communities, specifically as it relates to children and their educational opportunities.

With that in mind we respectfully request you give Ms. Korenstein's resolution the utmost consideration for adoption.

Sincerely,

**Mary Leos-Pacheco, Chair
Central Group of the Sierra Club**
